Innovative and Highly skilled java Full Stack Developer with a Solid Foundation in computer science. Proficient in leveraging cutting-edge technologies to build dynamic, high-performance application Adept at translating complex requirements into robust scalable solutions, with hands-on project experience and deep understanding of java principles and database management.

SKILLS

Programming Languages: Java, JavaScript, C++

Frameworks & Libraries: JSP,Servlet, Spring, Spring Boot, Hibernate React.js, Tailwind CSS, Material UI, REST API

Tool & Platform: Git, Github, VS-Code, MySQL,SQL

Additional Courses: Full Stack Java Development- ExcelLR, Data Structure And Algorithm .

04/2024

EDUCATION

Govt. Engineering College,Banswara

Bachelor of Technology in Computer Science and Engineering - 7.4 CGPA

08/2019 - 09/2023

Banswara,Rajasthan

S V M Se. Sec. School, Phulera

Senior Secondary - 62%

07/2018 - 05/2019

Phulera, Rajasthan

PROJECT

stylebord

12/2023 - 03/2024

- Developed a Dynamic e-commerce Platform Using React.js Tailwind CSS, Material UI for Frontend Design
- Java, Spring Boot for Backend Implementation and Integrating Spring Security .
- Highlights Include advance item filtration, Razorpay integration for secure transaction and intuitive admin panel.

Weather Application ([Click](#))

10/2023 - 10/2023

- Design and Implemented a responsive Weather Application using HTML, CSS, JavaScript.
- Integrated Live Weather data through API's, ensuring users receive accurate and timely information.
- Implemented geo-location functionality, tailoring forecasts based on user current location for a personalised experience.

Password Generator

10/2023 - 11/ 2023

- ShieldGenius is robust and user-friendly, designed using HTML, CSS,JavaScript to generate passwords.
- Offer a range of options to customise strength, allow user to choose weak medium and strong password based on their security needs
- Ensured responsive design for seamless use on both desktop or mobile.

EXPERIENCE

Full Stack Java Developer | Internship

02/2024 - 05/ 2024

Ai variant

- Developed a dynamic EMS for Aivariant using React, JavaScript, and Tailwind CSS, enhancing the user interface and user experience. Implemented backend functionalities with java, SpringBoot to manage Employee data efficiently, including attendance, payroll, and performance reviews.
- Leveraged deep analytics to streamline HR operation, ensuring accurate and automated data processing.
- Collaborated closely with the Aivariant team to align technical solutions.

Cloud computing with AWS | Internship

07/2022 - 12/ 2022

Internshala

- Spearheaded the development and management of AWS infrastructure, employing services such as EC2, S3, RDS for Optimal Performance and scalability.
- Ensure a secure cloud environment by implementing IAM policies, conducting security audits .
